## SECTION B: Your Washington Saltwater Fishing Trip Preferences

In this section we want to know about your preferences for different types of saltwater fishing trips in Washington. The trips vary in location, catch, regulations, and fishing cost. You can pick one of the trips or choose to do something else.

Please consider each choice (A, B, or C) in the following questions carefully, then answer the questions below the table.

Use the **Charter Boat cost** if that is the method you would be more likely to use for that choice. Likewise, use the **Private Boat cost** if that is the method that you would be more likely to use for that choice. (*only use the Private Boat cost if you own or have access to a boat*)

### Helpful Information

- **Fishing location:** The fishing location is either in the **Ocean** area or **Inside** area as shown on the map on Page 3. If you have fished the area, the fishing location is where you launch from most often (where you circled the map on Page 3). If you have not fished in one of the areas, the launch point would be the one closest to your residence.
- **Catch per day:** The catch per day describes the total expected catch of each species, and the average weight of each fish. The average weight is the weight before cleaning or filleting. You may not be able to keep all of the catch depending on the listed Daily Limit.
- **Daily limit:** The daily limit is the number of fish of each species that you are legally allowed to keep per day.
- **Fishing Cost per day:** The fishing cost per day is your personal share of the fishing cost. The cost of traveling to the launch site is not included in this amount. Please consider the travel cost you'd have to pay when answering the questions. If you'd take an overnight trip, please also consider the lodging/camping cost.

**Charter Boat cost:** If you would use a charter boat for the trip, the cost is for all charter fees and tips. Cleaning, but not filleting, is included in the charter fee.

**Private Boat:** If you would use a private boat for the trip, the cost is for bait, ice, tackle, daily moorage or launch fees, and boat fuel purchased especially for the trip.
